Who We Are

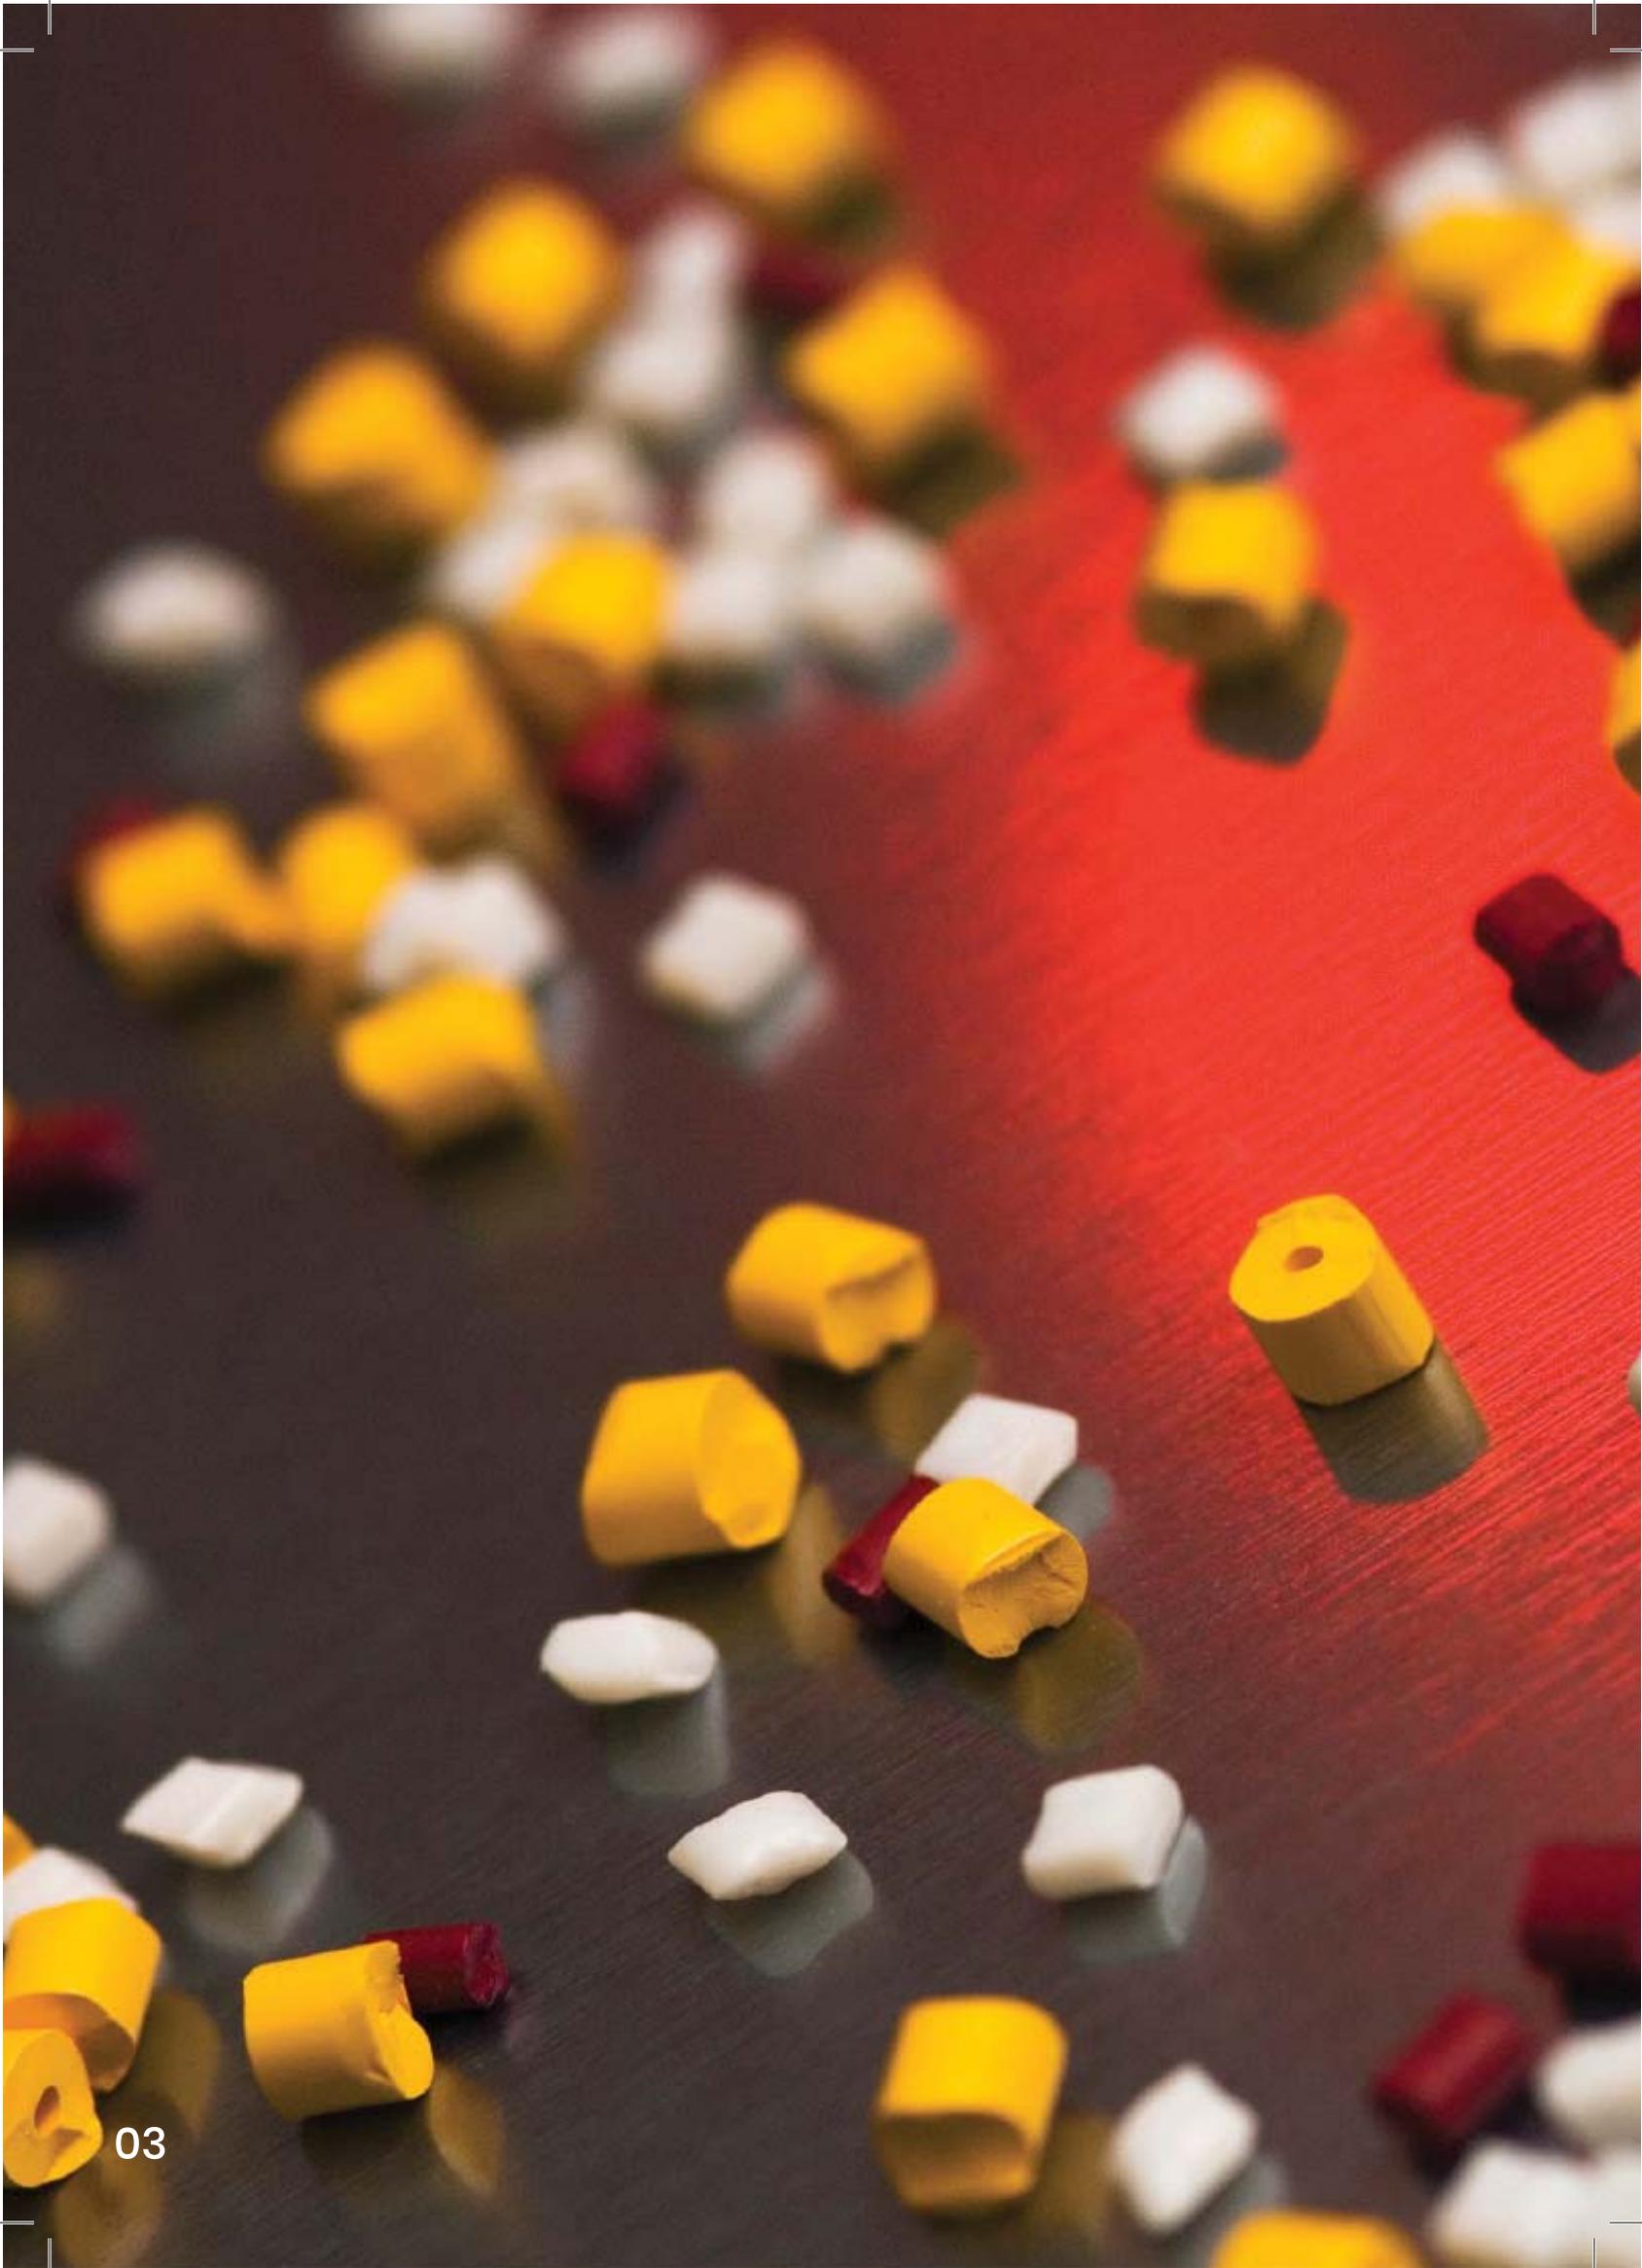

For over 3 decades, Bihani® Group has engaged in manufacturing & trading of processed polymers for various sectors.

The company is founded on strong ethos of Innovation, Quality, and Research & Deliverance.

Bihani Group portfolio covers a wide array of market segments with very targeted and strategic products based on a problem solving approach.

The company excels in bringing together the polymers knowledge and integrating it with real life solutions. From being a prominent player globally in the Wire & Cable segment, the company has expanded its horizons with world class products in Agriculture, Automotive, Food Packaging, Medical and Engineering Polymer replacement categories. Bihani Group aims to provide a strategic depth to any value chain that it is a part of.

“ **World Class
Compounds & Masterbatches
Made in India,
For the World** ”

01

Three World class factories across India with fully automated High speed Lines. Quality Management practices that are tuned to meet a global customer base.

02

R&D designed to perform in stringest compliance conditions.

03

Logistics & supply chain ready for Pan India & Global operations

Our Products

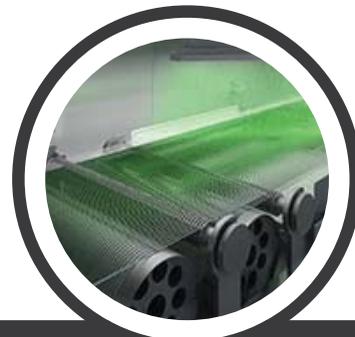

PVC Compounds for
Wires & Cables

Auto Wire
Compounds

Zerohal[®]

RADXCURE[®]

PVC Compounds
for Gabions

PVC Compounds For
Medical Applications

SMARTBATCH®

Tube & Hoses

Polyethylene Compounds

Footwear

Liners & Closures

Rigid Compounds

Technical & Production Capabilities

01

Satisfying regular visits & audits by leading global customers

02

Multi-locational manufacturing facilities

Dedicated manufacturing facility for ROHS, REACH & FDA compliant products

03

Materials manufactured on state-of-art brand new European compounding lines ensure optimum product quality and consistency.

04

Compounds & masterbatches designed to run on high speed extrusion lines upto 1200 Mtr/ min

05

High Performance Compounds from -55 Deg C to +150 Deg C

06

Products Complying to FDA, ELV, GADSL, ROHS & REACH along with latest updations and amendments

07

Products meeting to International Specs Such as BS, DIN, EN ISO, IEC, JASO, JISC, UL, SANS, SVENSK, Etc.

08

Deploying industry's finest talents in each product category & at the heart of product development

01

Where Compliance is critical

02

Where Performance is critical

03

Where Technical Capabilities are critical

04

Where R&D Support is Crucial

05

Where Cost is critical

Highlights

Joint Ventures & Contracts

Experience Bihani Group Now

PVC Compounds

*Meeting Leading Global Standards
Rigid & Flexible options for*

- Food & Beverages
- Wire & Cables
- Footwear
- Capstock
- Medical
- Automotive
- Pipes & Fittings

Alloys for engineering polymers replacement...

Halogen Free Compounds

*ZEROHAL[®]
PEXIDAN[®]
Thermodan[®]*

HFFR compounds manufacturing in JV with SACO AEI Polymers Inc. USA, World Leaders in HFFR & Crosslinking Technologies
SAB JV now open.

Masterbatches

Smartbatch[®]

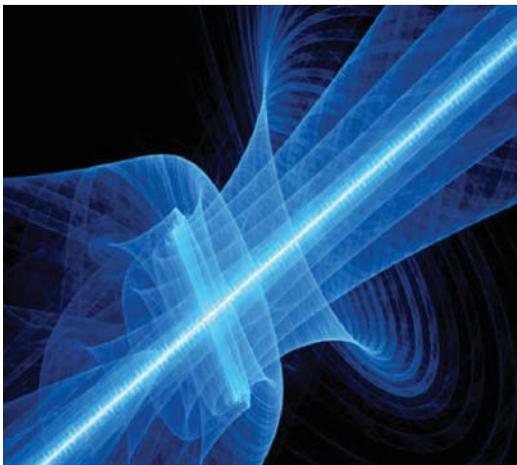

Next Generation Additive & Colour Masterbatches Anti Insect, Anti Rodent, Anti Microbial, Anti Corrosion, Preservation free Products & Many more. Oxo-Degradable Masterbatches in association with Symphony Environmental Ltd., UK of Indorama Ventures

Polypropylene Compounds

Mineral & Glass filled PP compounds made on State-of-art German Production Lines

- Automotive
- Consumer Durables such as Collers

E-Beam Compounds

Electron Beam curable compounds made in India by Bihani®

- Defence
- Solar
- Automotive
- Railways
- Shipboard

Ideal for circuit integrity area installations

TPU & TPE Compounds

SOFT PE compounds modified with ELASTOMERS

Typical Applacations

- Packaging
- Handles & Grips
- Footwear
- Liner & Closures
- Beverages

Polymer Compounds

Polythene Bihani® PE Compounds are registered by BIS (8600109116 for IS 7328:2020) for HDPE

- 3LPE
- Telecommunication
- Caps & Closures
- Power Cables

Manufacturing Facilities

We are where India's finest are

- **Chopanki, Bhiwadi**
- **Gujarat**
 - **Vapi**
 - **Rajkot (Exports)**
 - **Pardi**

Servicing the world through Mundra and Nava Sheva Ports
