PVC Compounds Medical Applications

About Us

Bihani is a leading Compounds & Masterbatches producer based in India but with a formidable local as well as International clientele. Working closely with Global majors has allowed us to develop product portfolios based on international specifications as well as undertake customized developments.

Backed with strong integrity towards its customers, Bihani works independently with market leading companies engaged in medical applications mainly catheters. Our products are in accordance with various international Standards & Compliances. The production facility is fully automatic and in GMP environment. Comprehensive in-house test facilities ensures quality and consistency with each supply.

Complies to:

International Organization for Standardization
